Gigantic Sea Turtle Hailed by Koreans As Prosperity Omen

SEOUL, KOREA.—An upsurge of spirits came to this republic recently with the arrival of a gigantic sea turtle—possibly the largest ever caught.

The turtle, getting into the spirit of things, downed three crocks of wine offered it by fishermen who snared it off the south tip of Korea.

"It's an omen," solemnly declared President Syngman Rhee. "The turtle is our symbol of longevity and prosperity. It means prosperity for the nation."

The turtle was described as being six or seven feet long and was estimated to be 1,000 years old.

President Rhee ordered it brought to the Seoul zoo and radioed the Korean embassy in Washington on the care and feeding of turtles.

The President wasn't kidding about the prosperity and longevity omen. It goes far back into Korean folklore and also is bolstered by history.

In 1592 the famous Korean admiral Yi Sun Sin devised a turtle-shaped ship credited with being the world's first armor-clad vessel.

With a small fleet of these strange craft, he thwarted an invasion by the Japanese dictator Hideyoshi, ramming and sinking the enemy ships with the great turtle-headed prow while archers fired flaming arrows from beneath the armored carapace. It was 300 years before Japanese seapower recovered.

Rhee did not mention this, but every Korean knows the story and will get the significance.

Report Made Gasoline Can Be Taken From Coal

WASHINGTON.—For a federal bureau of mines has reported that gasoline can be made from coal to sell for only three or four cents a gallon more than natural gas.

The estimate was part of a report prepared by staff members of the bureau's coal-to-oil demonstration plant at Louisiana, Mo.

James Boyd, bureau director, said the report demonstrated that unlimited quantities of premium gasoline now could be produced from coal at a cost that would increase the current service-station price by only three to four cents a gallon."

"Through the sale of by-products phenols, for which demand may be limited, a few initial plants could produce gasoline at an even lower cost," Boyd said.

M.D. Lifts Own Appendix, Back at Work in 2 Days

TELLURIDE, COL.—Dr. George C. Balderston was back at work, two days after removing his own appendix.

While at the American Legion hospital Dr. Balderston set all the proper tools together and summoned a friend, Dr. Richard Gladman, to stand by in case anything went wrong.

Then, without using mirrors, Dr. Balderston went to work. In a sitting position he handled the entire operation on himself and after about 45 minutes he closed the wound with clamps and stitches.

The idea?

"I wanted to get a first-hand reaction of a patient to local anesthesia. And I wanted to study post-operative effects."

He said he figured he'd proved patients should "get back on their feet as soon as possible after surgery."

He said he felt fine.

Red-Faced Detectives Nabbed as "Armed Men"

MT. VERNON, OHIO.—It was too hot for all this to happen, but it did—and the soaring mercury was the cause of it all.

Police here received a call that four armed men were heading North on Route 3 in an automobile. The state highway patrol, the sheriff's office and police went to work and set up a roadblock.

The sheriff of Columbiana county, headed for Ohio penitentiary with a prisoner, heard the police broadcast. He turned back to join the manhunt.

The roadblock worked, the "armed men" were halted—but they turned out to be four Cleveland detectives.

The detectives had stopped along the highway near Sunbury to remove their coats because of the heat—and someone saw their service revolvers.

Percentages Scrambled In California Election

SAN CARLOS, CAL.—Residents of San Carlos figured either there were some ballot-counting shenanigans or statistics can't be trusted.

In a petition circulated to find out whether residents favored or opposed new sidewalks, 51 per cent of the population said "Yes," 51 per cent said "No."

The uproar caused City Clerk Beatrice Roberts to resign and Chief of Police Ed Wheeler was threatened with a lawsuit for false arrest for trying to eject from the city council a leader of the anti-sidewalk movement.

AUCTION SALE
Of Valuable Real Estate
The undersigned sole acting Special Commissioner, pursuant to authority vested in me under the term of a certain decree entered at the June Term of 1949 of the Circuit Court of Appomattox County, Virginia, in the Chancery Suit of the Federal Land Bank of Baltimore, a Corporation, vs. David P. Moon et als, now pending in said Court, and said decree having been entered more than thirty days prior to the undersigned acting thereunder and no payment having been made in accordance with above-said decree, will sell to the highest bidder on
OCTOBER 29, 1949 at 2 P. M.
In front of the Court House of Appomattox County, Appomattox, Virginia, the following property, to-wit:
That certain tract or parcel of real estate, with buildings and improvements thereon, in Southside District of Appomattox County, Virginia, containing 168.88 acres, more or less, about three miles West of the Court House adjoining the old W. D. Robertson place, R. W. Smith and others and being the David P. Moon tract and conveyed to said Moon by Deed of record in the Clerk's Office in Deed Book No. 102 at page 105 and referred to in said Deed and Deed and plat thereon referred to is hereby made for a better description of the said real estate. Same is sold, however, subject to easements of the Virginia Electric and Power Company, a corporation.
Terms of Sale: Cash or at option of purchaser 1-3 cash, balance one and two years in equal installments to be evidenced by notes executed by the purchaser bearing interest from day of sale, and containing a waiver of the homestead exemption and title to be retained until purchase price paid in full and insurance on building required in amount of $300.00.

TOWN ORDINANCE
All applications for the supply of water must be made at the office of the Town Manager of Appomattox in person or by duly authorized agent on service contract or application form furnished by the Town. The application when accepted by the Town will constitute a contract between the Town and the patron.
If any water meter gets out of order or fails to register accurately the consumer will be charged at the average daily rate as shown by the meter when in order.
All water passing through meters will be charged, whether used or wasted, even though the house or premises may not be occupied. When premises are unoccupied owners may have water cut off by notice to the Town Manager's office.
The Water Department will furnish all meters and meter boxes, set them in place and keep them in order at its own expense, provided that the meters required do not exceed one inch in size. Persons, firms or companies who require meters larger than one inch shall pay meter rent as shown in the schedule of rates. Such metering equipment shall be under the control of the Town as other metering equipment and no other metering equipment or equipment shall be subject to the same penalties.
Whenever meters are put in at the cost of consumers, they shall be paid for at actual cost, plus ten per cent.
No person or firm, except an officer or agent authorized by the Town of Appomattox shall at any time remove or undertake to repair or in any way interfere with any water meter or fixture connected therewith, under a penalty of not less than five dollars nor more than twenty-five dollars for each offense.
The Town of Appomattox shall not be required to remove and test meters or substitue new meters at the demand of water takers, unless it has good reason to believe such meters to be inaccurate. Complaint against a water bill shall not be taken as a proper excuse for non-payment of same when due, or exempt complainant from the penalties prescribed for failing to pay his bill at the proper time.
The consumer of water by meter may use it for any and all purposes on his own premises, but will not be permitted to supply water to any other person or premises except in cases of necessity, under a penalty of not less than five dollars nor more than twenty-five dollars for each offense.
When more than one supply is made through one service pipe and under control in case of one stop cock, one person must make application for all said supplies and the bill will be made to said applicant for all the parties so supplied.
When more than one service pipe is used to supply water to one house or tenement, the landlord shall be required, before the water shall be allowed to be used at such premises, to have the pipe so arranged that all the water on the premises shall pass through one meter, or if he prefers to do so, additional meters will be furnished by the Town, the cost of which, together with the cost of setting the same, meter boxes, repairs, etc., shall be paid for by the said landlord, plus ten per cent.
All repairs or replacements of meters caused by carelessness, neglect or interference of water patrons shall be made by the Town at the expense of the water takers or landlord, or whoever is responsible for the water bill.
All water bills not paid by the 10th day of the month succeeding the presentation of the bill, the water shall be cut off and one dollar charged for turning it on again.
Any authorized agent or agents of the Town shall have access at all reasonable times to premises supplied with water to examine the fixtures, meters, manner of using water, etc.
Water must be turned on to any premises only by authorized agent or agents of the Town.
All leaks in or upon premises supplied with water must be promptly repaired by the owners or occupant and on failure to make such repairs with reasonable dispatch, the Town may turn off the water from the premises until necessary repairs are made and charge one dollar for turning the same on again.
The Town reserves the right to discontinue its service without notice for any of the following reasons:- for repairs, want of supply, non-payment of bill when due, for any fraudulent representation in relation to consumption of service; for violation of contract, or any rules or regulations applying at any time to consumer's service; in event the consumer's service is detrimental to the service in general or his immediate locality; on account of riots, strikes, insurrection, government, state or municipal authorities, or acts of God, or other causes whatsoever, and the Town shall not be liable for damages to any person, persons or corporations for such cutting off of service.
If any person not acting under the authority of the Town shall turn the water on at any premises whatsoever, or if any person shall take, receive or use the said water, before having made the proper arrangements for the same, he shall pay a fine of not less than five nor more than twent-five dollars for each offense.
The Town may refuse to introduce water into any premises until all arrears due from such premises shall have been paid. It shall have the right to cut the supply to the premises of any patron found necessary to do so in order to protect the work against leaks or fraud.
The Town, whenever it deems expedient, require security for the payment of water likely to be consumed, or the deposit of a sum in advance to secure the Town against loss, and may, whenever it deems expedient, require security for the payment of tapping charges for water larger than one inch, or the deposit of a sum of money to secure the Town against loss.
Permits for the use of water will not be granted to a block of stores, shops, tenements, apartments, rooms occupied by different families or families using water from the same meter, unless the application be made by the landlord or agent of such premises and all water or bills for water are to be paid to and collected from him or his agent.
All water taps will be made for meters installed back of curb by the Town and no water tap shall be made until all of the requirements contained in the plumbing laws of Virginia have been complied with and approved by the plumbing inspector.
All repairs to water pipes and fixtures in the streets from the main to the curb line, shall be done by the Town at its own expense and no person except an employee of the Town shall, under any circumstances, interfere with the water pipes in the streets. A violation of this section shall subject the offender to a fine of not less than twenty-five dollars nor more than twenty-five dollars.
There shall be placed in the service pipe below freezing point, inside or outside of the walls of the premises to be supplied with water, a brass stop and waste cock with lever or handle made easily accessible to the occupants in order to them to turn off the water in case of leaks, or drain the pipes within the house to prevent freezing.
A similar stop and waste cock shall be placed on each separate branch of water pipe so that each branch may be controlled separately.
A service connection and meter will be installed for each separate building.
The Town may from time to time make such rules and regulations for furnishing water to patrons as it may deem proper, to take effect when approved by the Town Council.
